RBK Spoiler Installation Instructions

PARTS NEEDED:

- RBK Spoiler
- 3M double-sided tape
- 2 mounting screws
- Drill with 9/64 bit (not included)
- Masking tape (not included)
- Rubbing alcohol (not included)

PART 1: Drilling the holes for the screws

1. Place the spoiler at the mounting area (**precision is crucial here**)
2. Use some tape to temporarily fix the spoiler to the mounting area, making sure the spoiler doesn't move from its desired position
3. Open the hatch
4. Locate the two plastic pieces at each end of the hatch and remove them (simply pull them out)
5. Using a 9/64 bit, drill through the corners previously covered by the plastic pieces, making sure the spoiler gets drilled as well
6. Close the hatch and remove the spoiler from the mounting area

PART 2: Painting the Spoiler

1. Activate the primer by sanding evenly with a 600 grit sandpaper
2. Apply the paint/clearcoat to achieve desired finish
3. Let the paint settle and dry on a dirt-free area
4. Polish the piece for optimal results

PART 3: Installation

1. Clean the mounting areas on both the hatch and spoiler with rubbing alcohol to remove impurities and ensure contact with the double-sided tape
2. Remove the protective film from one side of the tape
3. Apply double-sided tape from right to left of the spoiler, making sure that no air bubbles get trapped in the process
4. Remove a little bit of the protective film on the other side of the tape (just enough for it to stick out from the top of the spoiler once it's fixed in the mounting area)
5. Place the spoiler in the desired area (**precision is crucial here**) and screw the screws on the previously drilled holes, making sure they're completely fastened
6. Carefully pull off the remaining protective film from step 4
7. Apply firm pressure towards the front to ensure optimum contact with the double-sided tape
8. Open the hatch and reattach the plastic pieces to cover the screws (replace double-sided tape if needed)
9. Take lots of pictures and upload them to YarisWorld and MicroImage
10. Enjoy your brand new spoiler!
