* Airbag Notice: The 2008 Yaris Hatchback features a driver & front passenger airbag Supplemental Restraint System (SRS) which activates only in a full-frontal collision of sufficient magnitude to inflate the bags. In moderate frontal collisions, the airbags may not inflate; in a rear or side collision the airbags are designed not to inflate, so the primary protection is provided by the lap and shoulder belt system. *Seatbelts must be worn at all times by all occupants.*

Yaris Hatchback 2008

Yaris 2008

Not just another car, Yaris and Yaris Hatchback are the first full expressions of a design evolution at Toyota – based on a concept we call 'Vibrant Clarity'. It means that every Toyota from now on will truly push the frontiers in terms of design and performance. 'Vibrant' stands for innovation and energy; 'Clarity' refers to the rational side of the design equation.

This direction for Toyota finds its roots in Japanese culture – the balance between ancient wisdom and modern technology – something we refer to as the J-Factor. But you can call it Yaris – for short.
